COMPACT HIGH PERFORMANCE+ PANEL 600X600 IP44 5500LM 45W 4000K DALI 122LM/W BACKLIT

Description

This 45W and 5500lm Integral LED High Performance+ DALI panel delivers a uniform cool white light across the whole of its surface. Its high level of efficacy (140lm/W) offers savings in running cost against traditional 72W fluorescent fitting as well as many other LED panel.

The panel is fitted with a polycarbonate diffuser that has been tested by a UK based laboratory and passes BS782-0:2004 Method 508A, as required by Fire Safety regulations.

Its lightweight steel and PC design, with integrated DALI driver, means installation is simple and maintenance is minimal. It is an ideal solution for applications using a verified DALI control system.
