### **Description**

This 2M Surface Mounted Aluminium Profile (also known as Extrusion) is designed for any Integral IP33 Flexible LED Strip range with 8mm and 10mm width. A frosted diffuser (cover) is included. Suitable for many applications such as lighting for furniture (bookcases, wardrobes), glass cabinets (jewellery), counter units (reception desks, bars) and decorative ceiling lighting (coving). Accessories including endcaps, endcaps with cable entry and mounting bracket (clips) are available to purchase separately.
