## Description

Rich reds, pretty pinks, gorgeous greens – This Integral LED Strip offers high colour rendering (CRI 90) to bring out the colour in any space . Your colours will appear more vibrant and better defined than with a standard LED strip (CRI 80) – ideal for showing colourful furniture, artwork, fashion, food and other retail products at their best.

This IP67 strip is suitable for installation in bathrooms as well as outdoor installations such as garden and path lighting.
