

## **VALUE+ PANEL 600X600 3850LM 38W 6500K NON-DIMM 101LM/W EDGELIT**

### **Description**

This is a 38W, 3850lm 600x600 Integral LED Value+ panel. It delivers a uniform cool Daylight light across the whole of its surface. The high level of efficacy (101lm/W) offers savings in running cost against traditional 72W fluorescent fittings as well as many other LED panels.

The panels are an ideal solution for many applications.
